

# Drive Exchange

When you participate in the Philadelphia Mixers Drive Exchange program, we will ship you a rebuilt and improved mixer or aerator gear drive in exchange for your old gear drive. We have a complete standing inventory of all types of reconditioned mixer gear drives available for shipment within 24 to 72 hours – guaranteed!

- Reduce maintenance costs and save money!
- Eliminate unplanned downtime and risk of non-compliance!
- Increase the reliability and dependability of your mixer and aerator gear drives!
- Get the protection and security of a new 3-year warranty!

We help you identify your inefficient, old mixer gear drives. We immediately ship you a rebuilt and improved mixer gear drive of equivalent or better capability. Then you exchange and return the old drive to us within 30 days. We will inspect, repair, rebuild, and keep your old drive. You pay only the cost to inspect and rebuild your drive, which we guarantee will be no more than 85% of the cost of a brand new drive!

Contact Philadelphia Mixers and/or your local representative today to learn more about our Drive Exchange program and other programs that can improve your operating efficiency, reduce risk of non-compliance and save you money! Creative financing plans are also available.

# Service All Mixers and Aerators

Philadelphia Mixers has the process and mechanical expertise to Service All Mixers. We have used our 200 years of experience and knowledge to analyze every mixer and aerator product. We know mixer/agitator gear boxes and mixing processes better than anyone! Using our retrofit kits, we can repair and service all mixers and aerators, no matter who manufactured the equipment! Consolidate your suppliers to the industry leader in process and mechanical expertise.

- Extended warranty and increased dependability and reliability!
- Eliminate the time and confusion from contacting multiple suppliers!
- Eliminate the mystery of comparing competitor's products!
- Increase capacity at your plant!
- Drive accountability to a single supplier!
- Save money!

We can rebuild and improve your existing mixing equipment, regardless of the manufacturer. Or, we can replace your mixer gear drive with an equivalent or better rebuilt or brand new Philadelphia Mixer gear drive using our retrofit kits. We will provide you with the options to maximize your process results! We will provide an extended warranty on our work, so you will have the comfort of dependable and reliable equipment.

Contact Philadelphia Mixers and/or your local representative today to learn more about our Service All Mixers program and other programs that can improve your operating efficiency, reduce your risk of non-compliance and save you money! Creative financing plans are also available.

## Are Your Mixers and Aerators Mission Critical?

Philadelphia Mixers will help you understand how critical your mixers and aerators are to your operating process. With your operations team, we will evaluate your operating process and provide you an analysis of the risks associated with the performance of your mixing equipment as well as the potential time and costs to respond to any failures of this equipment.

- Understand the critical nature of your mixers and aerators!
- Plan predictive maintenance to ensure continuous operation!
- Eliminate unplanned downtime and the risk of non-compliance!
- Reduce your energy and maintenance costs!

We will meet with your operations team to survey all of your mixer equipment and grade each component by the effect of failure on your operations.

- A - requires immediate plant shutdown
- B - plant able to operate for several days
- C - plant continues operation for one week
- D - redundant capacity

We will then document and initiate a plan, with regular reporting to you, to support the A/B/C/D mixers with replacement mixer parts and gear drives, no matter who manufactured the equipment!

Contact Philadelphia Mixers and/or your local representative today to learn more about our Mission Critical program and other programs that can improve your operating efficiency, reduce your risk of non-compliance and save you money! Creative financing plans are also available.
